Michigan Department of Labor and Economic Growth/Office of Workforce Programs, PI 00-32 (Participant Management Information Guide), Change 20, dated October 16, 2006, and subsequent changes; PI 01-40 (Welfare Management Information Guide), Change 04, July 8, 2003, and subsequent changes; PI 02-39 (Food Assistance Employment and Training Policy Guidelines), Change 02, April 30, 2004, and subsequent changes; and PI 03-39 (Trade Act Management Information Guide), Change 01, April 29, 2004, and subsequent changes.

Capital Area Michigan Works! current contract provisions and PI 02-07 (Audits), and subsequent changes.

Background: Supportive services assist eligible participants facing specific barriers to securing employment when no other resources are available to address their needs. Each funding source establishes parameters for allowable supportive services with the MWA responsible for setting local policy.

Within the financial limitations of the MWA funded programs, a limited supportive services system will be established to assist participants in removing barriers to enable the individual to participate in program activities including job acquisition and retention when such services are not otherwise available from other resources/sources.

Policy: Sub-Recipients shall adhere to the limitations established for the provision of supportive services per funding source. Any supportive service provided to remove a barrier(s) to enable an individual to participate in program activities including job acquisition and retention shall be documented in the One-Stop Management Information System (OSMIS) in the Supportive Service area. Documentation of supportive service provided to program participant shall be placed in the individual participant file to correspond with each supportive service.

Case notes shall be used to document what other resources/sources were considered and the lack of other resources/sources. Under no circumstance may a supportive service be provided if the supportive service is readily available in a timely manner from another source. Case notes shall be used to document the actual dollar amount and funding source of the supportive service in cases where the MIS does not provide for the separate recording of supportive services.

Any combination of funding may be used, as appropriate and allowable. However, a single funding source limitation may not be exceeded with the aggregate of multiple funding sources.

The Chief Executive Officer of CAMW! or designee may grant waivers to specific supportive services limitations and/or prohibitions. The Administrative Office may add supportive services in the event the provision of a service has been overlooked in the formation of this policy if the supportive service is necessary to enable an individual to participant in activities.

Capital Area Michigan Works! will not provide Needs-Related Payments (NRPs). If CAMW! applies for a United States Department of Labor National Emergency Grant which mandates NRPs, a policy will be developed at that time and this policy issuance will be modified.

Acceptable accounting procedures including procurement requirements shall be used in the provision of supportive services.

Inquiries: Questions regarding this policy issuance should be directed to Edythe Hatter-Williams, Chief Executive Officer, at (517) 492-5504. TTY: 711.

The information contained in this policy issuance will be made available in alternative format (large type, audio tape, etc.) upon special request received by this office.
